

TO USE A VIDEO CAMERA CONNECT

DIRECTIONS:

1. Connect all pieces of equipment according to diagram.
2. Turn on all equipment.
3. Put blank tape in camera and VCR (if you wish two copies).
4. Put VCR on line instead of a channel.
5. Start shooting.

TO COPY A TAPE FROM A TAPE

- Turn on the TV to Channel 4.
- Insert videotape into VCR 1.
- Using a coax cable, take the antenna out (may be labeled as TV out) into the antenna in on VCR 2.
- Using a coax cable, take the antenna out on VCR 2 and plug it into the TV antenna.
- VCR 2 should be turned to Channel 4.
- Play the tape in VCR 1. You should see the tape from VCR 1 on the TV. Adjust the tracking to get the best possible picture.
- Place the tape you want to record ON in VCR 2.
- Put VCR 2 into record.
- Press PLAY on VCR 1.
- When you have completed the copy, stop the play tape and then the record tape.
