THE OHIO SUPREME COURT

Learning Objective

Students will be able to describe the three branches of Ohio state government and describe the origin and powers of the Supreme Court.

Video Synopsis

In this *Our Ohio* heritage segment, students will visit the Ohio Judicial Center, the building that houses our state judicial branch and the Supreme Court of Ohio.

Teacher Background

The Ohio Supreme Court was established by the Ohio Constitution in 1803, the same year Ohio became a state. In its early years, the Ohio Supreme Court was headed by three justices who were appointed by the state legislature. At the Supreme Court, plaintiffs and defendants alike could make appeals to decisions made in the common courts across Ohio. To make sure that all Ohioans had the chance to have their cases heard, the Constitution required that justices hold a Supreme Court Session in every county of the state at least once a year, a process which became known as "riding the circuit."

In addition to hearing cases, the Ohio Supreme Court has the right to declare state laws unconstitutional. Its right to do so was established in the 1807 *Rutherford v. M'Fadden* case. The court's ability to review the constitutionality of legislative and gubernatorial actions helps maintain a system of checks and balances in Ohio's three branches of government to this day.

In 1851, Ohio voters approved a new state constitution. The new constitution stipulated that five justices would serve on the Supreme Court and would be elected by voters, thereby limiting the state legislature's influence. Until 1912, the number of judges on the Supreme Court varied from three to six. After amendments made to the constitution in that year, the Supreme Court was staffed by six judges and one Chief Justice which is still true today.

The Supreme Court of Ohio has had many homes since its inception. In 1857, the Supreme Court was located in the Ohio Statehouse. In 1974, the justices held court in the Rhodes State Office Tower, before moving to their current residence, the Ohio Judicial Center in 2004.

Instructional Procedure (3-4 class periods)

The Ohio Supreme Court: What I Learned

- 1. Start by asking students if they know where the Supreme Court of Ohio is. Tell students that the Supreme Court is located in the state capital in a building called the Ohio Judicial Center.
- 2. Based on the information in the overview describe the Supreme Court and its role as one of the state's three branches of government. Explain the concept of checks and balances and how each branch helps keep the others in check. For example, the Supreme Court has the power to rule that a law is unconstitutional.
- 3. Distribute the worksheet *The Ohio Supreme Court: What I Learned* and have students complete the graphic organizer while watching the video.
- 4. After watching the video, review the worksheets together as a class.

Ohio's Three Branches of Government

- 1. Begin by asking students if they can name the three branches of government for the United States. Write the three branches on the board: Legislative, Executive, and Judicial.
- 2. Have students list the head of each branch and then discuss what each branch is responsible for.
- 3. Now, explain that like the Federal government, Ohio's government also has three branches. Like the United States Supreme Court, the Ohio Supreme Court has a Chief Justice and associate justices that heads the Judicial Branch. Like the U.S. Congress, which leads the Legislative Branch in Washington D.C., Ohio's Legislature is also presided over by a law-making body –the Ohio General Assembly. The Ohio counterpart to the United States president is the state governor.
- 4. Now, organize students into groups of 2-3 and distribute the *Ohio's Three Branches of Government* Worksheet. Explain to students that they will be working in the library to research the role of each branch of government in Ohio. They may use books or the internet to conduct their research.

THE OHIO SUPREME COURT

The Creation of the Court

- 1. Explain to students that like the Federal government, the state of Ohio also has a constitution. Drafted in 1802 by a group of thirty five delegates, the Constitution became law in 1803 when Ohio was officially accepted as a State of the Union.
- 2. Next, provide an overview of some of the provisions laid out in the Constitution. For example, the constitution established the three branches of government, a bill of rights, the length of terms served by the Governor and General Assembly, in addition it established the Supreme Court of Ohio.
- 3. Now, review with the class what primary sources are; then explain to students that they will be looking at actual excerpts from the Ohio Constitution of 1803.
- 4. Distribute the *Creation of the Court* Worksheets to students. *Students will need to refer to the dictionary for definitions of some of the words.* When students have finished working, review the answers together as a class before having students hand in. Use this as an opportunity to discuss how the Supreme Court has changed. For example, amendments to the Ohio Constitution have changed the number of Justices, terms of service, etc.

You Be the Judge

- 1. Explain to students that they will be presiding over their own Supreme Court trial to learn how legal disputes are settled. The case is based on the incidents from the bedtime story *Goldilocks*. Explain that this case has been appealed by Goldilocks and has made it all the way to the Ohio Supreme Court for a final decision.
- Divide students into groups of three to four and distribute the You be the Judge: Fact
 Sheet worksheet to each group. Explain to students that they will be reviewing the facts
 of the Goldilocks case, and, based on the evidence, determine if the final ruling was fair.
- 3. Should Goldilocks be vindicated or should her punishment stand? Each group will act as Supreme Court Justices and should work together to come to a majority opinion. To do this they will first deliberate and then write a one paragraph opinion on the case that includes their ruling.
- 4. After students complete the activity, each group will present their ruling to the class. Rulings will vary. Use this as an opportunity to discuss how the courts work and how the law is interpreted. It is likely that some groups found Goldilocks punishment too harsh, or, some may conclude that since Goldilocks is a minor she should not be tried as an adult.
