

# The Peacock Family and Their Friend Bear

By  
Claire Schubert

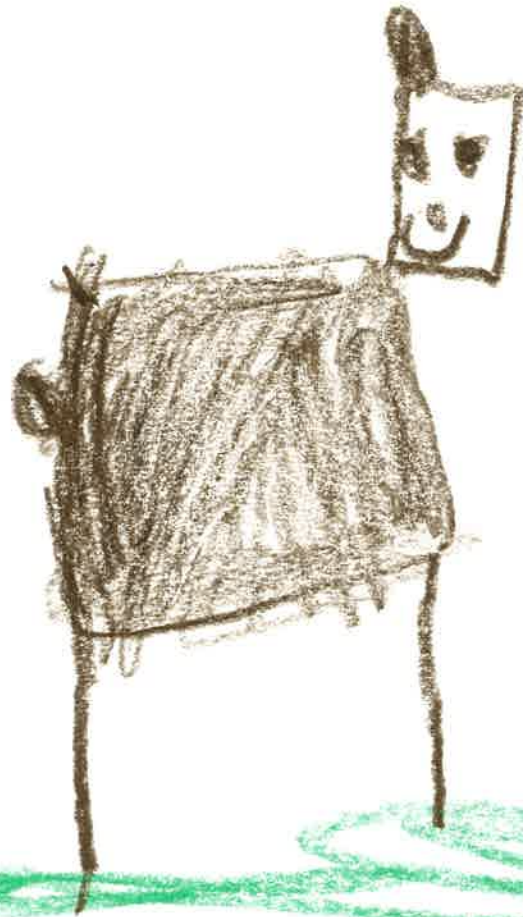

Once upon a time there was a peacock named Rosie. She had 3 little *peacock* children. One was a little boy named Sammy because he loved to eat salmon. The other two boys were named Andy and Candy.

One day Rosie, Sammy, Andy and Candy decided to go *up* on the hillside to go to the big ocean. They needed to catch salmon for Sammy to eat for dinner.

While they were on their way, they met their friend Bear. They asked him to catch some salmon for them since they weren't good at catching fish. Bear was happy to help them. "Just follow me and I will get you some salmon."

Bear led them up to the ocean and caught two giant salmon for Sammy. The *peacocks* said thank you and walked back to their little house under a palm tree.

Sammy ate his salmon while the others ate poisonous snakes and flower petals. They all enjoyed a lovely dinner and then went to sleep dreaming about their favorite foods.
