Little mouse

landed in

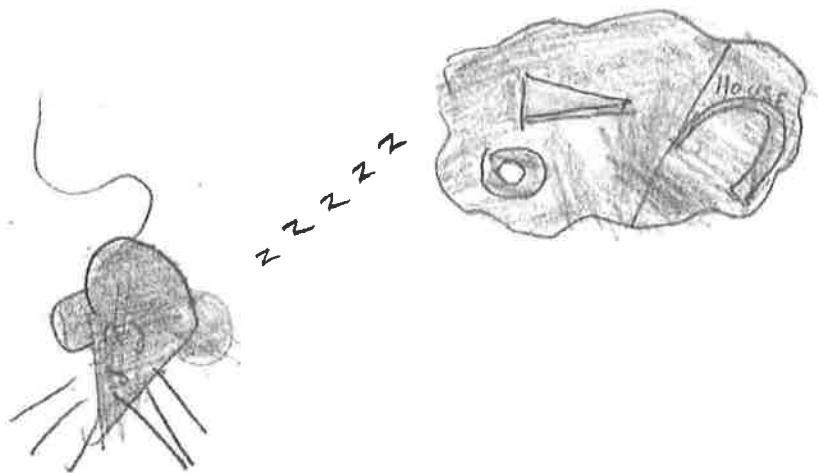

MARS

It searched for food.

It did not find any food  
or house to live!

Little mouse was tired  
and it slept after a long  
day.

He dream about his  
house in Earth.

He wants to go back

to Earth.

He waits,

waits and

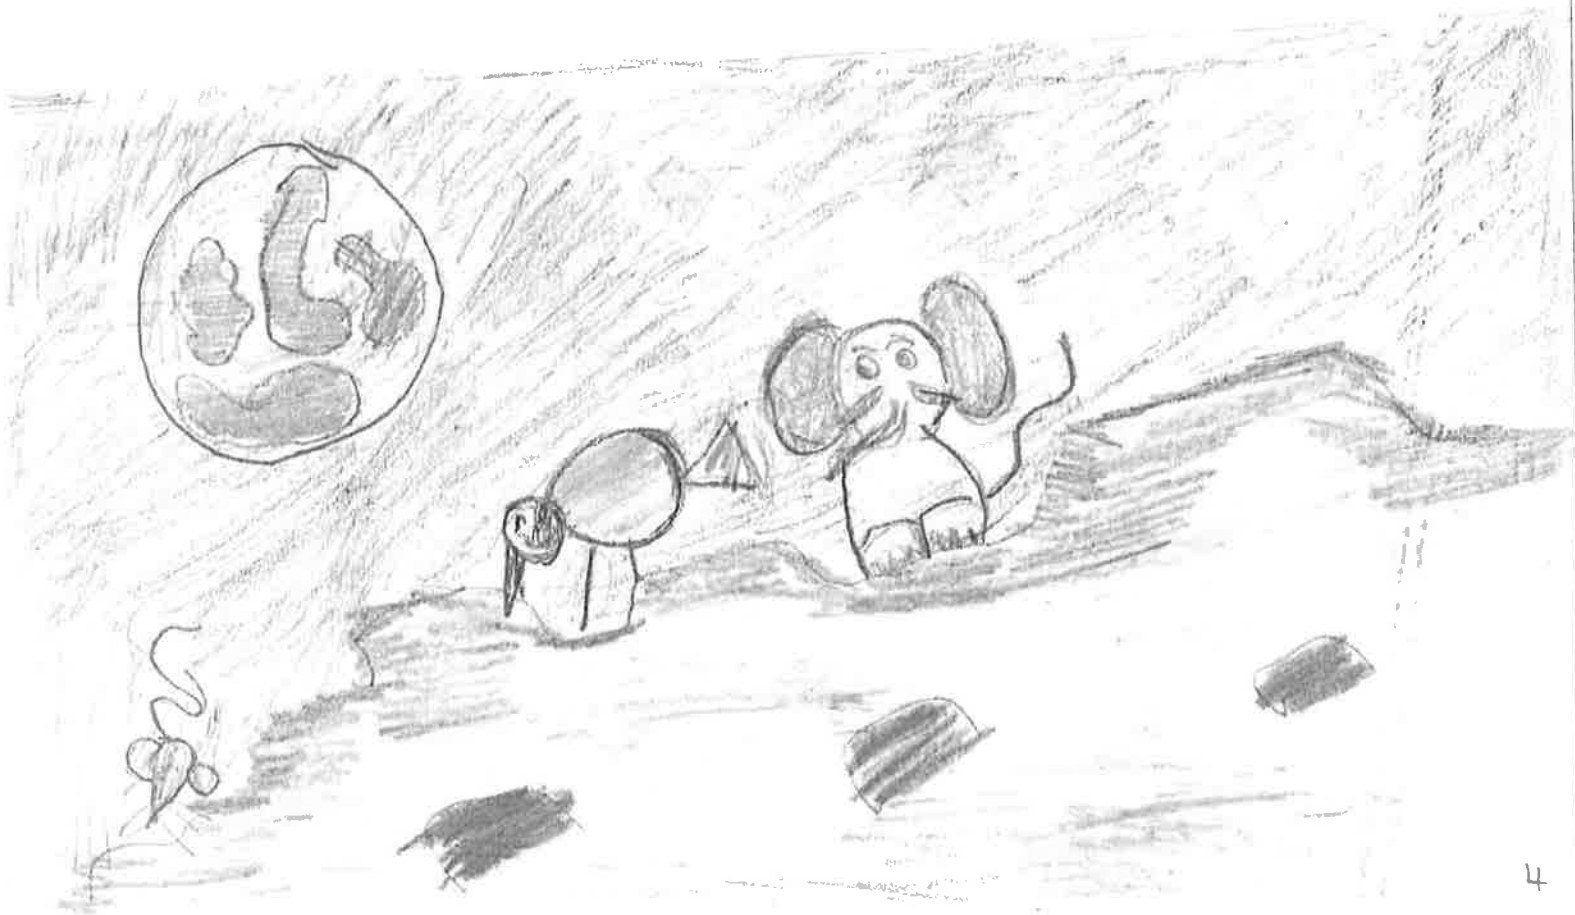

waits for a

space ship

to take him back  
to Earth.

Hungry mouse went  
in search for food. He  
saw an elephant,  
bird waiting for  
someone to take them  
back to Earth

little mouse thought  
a red rock as  
cheese and bite  
it but it did not  
break. Sad mouse kept  
exploring Mars.

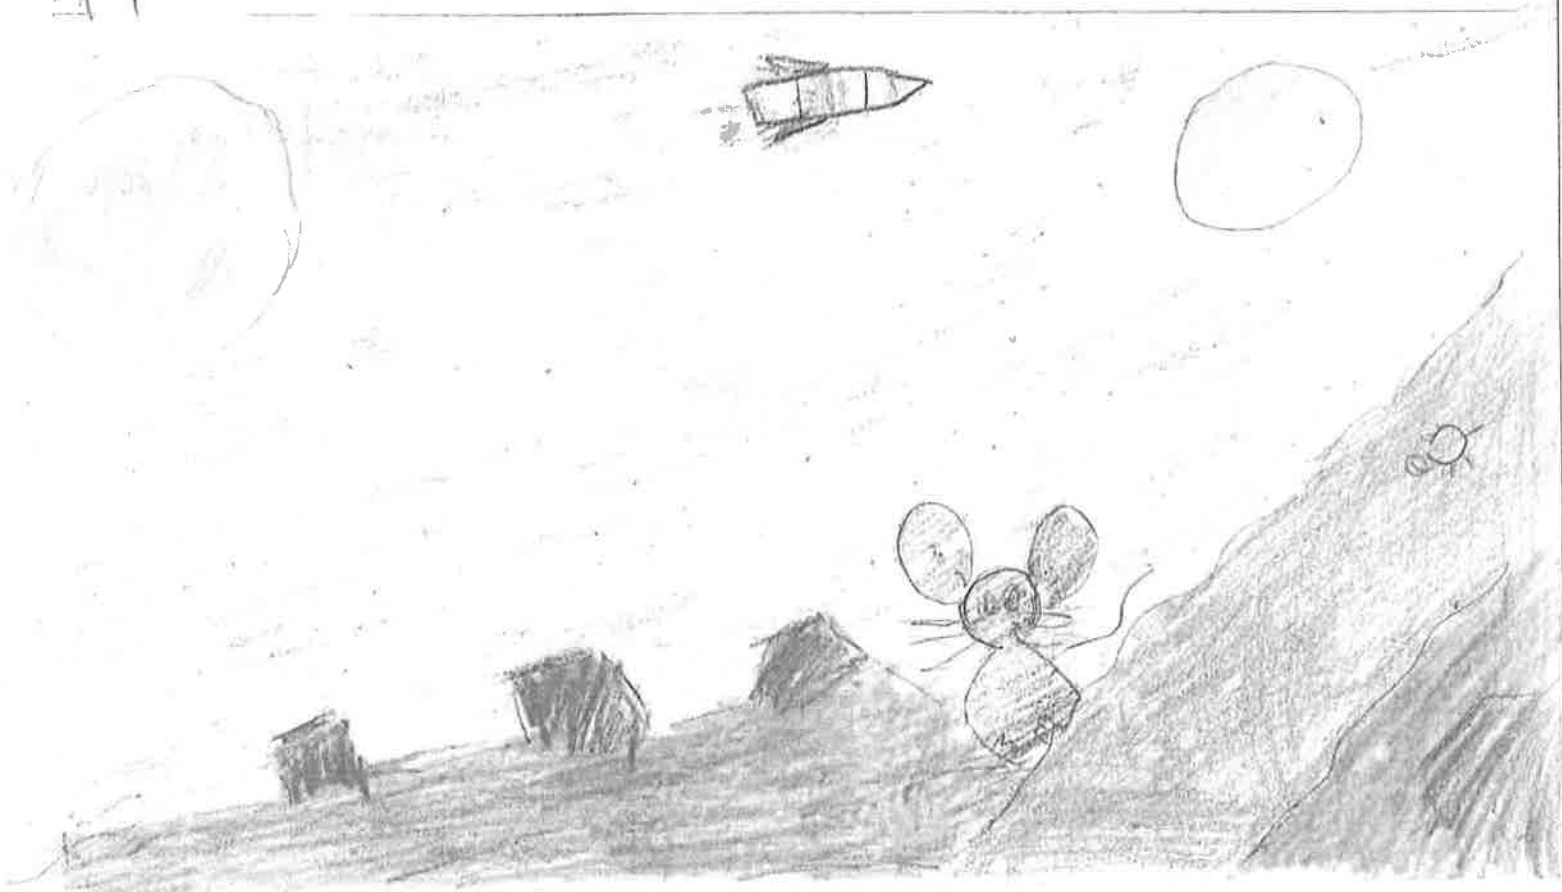

Sad mouse doesn't know

what to do so he kept

walking. Suddenly he heard

squeak sound coming

and so he decided to follow  
it.

He can't cross the icy  
watery stream. A turtle on the  
way heard his story and helped  
him to cross it.

The mouse noticed foot  
prints which belongs  
to another mouse. He  
began to follow the foot  
prints and it was  
leading to a big colony  
of mouse. Surprised  
mouse decided to live  
happily ever in Mars.
