

The

Invention

Contest

Written

Illustrated By: Quay

Anna Beyer

Here was a girl named Jane who entered an invention contest. She thought she wouldn't win.

Jane created her invention, the Garden-Grow 5000. To get

the invention to work, a person first needs to plant a seed. Then you face the machine at the plant. When you turn it on it will make the plant

grow immediately

Jane tested the invention and it didn't work. She decided that she would work on it some more.

Name Quay Page 3

Jane tested it out  
again with a daisy  
seed that she had  
found, and it worked!

On the day of  
the Invention Contest,

would turn it into a sphere. Hula made The Time Invention. If you type a year onto a keyboard, you can go back to that year.

When it was time for the judges to come around, Jane asked them to come outside with her. She planted a black-eyed susan seed, and made

How exciting!

it grow into beautiful  
flowers in a jiffy!

Finally, the judges  
went onto the stage. They  
announced that Jane  
won!
