Beck subjects his work and life to the camera's invasive scrutiny with a wit and charm that's both inviting and ambivalent. Curious Worlds captures the artist at work in his studio and reflecting on his process in an intimate portrait illuminating what it takes to create a masterwork: extraordinary ideas, an almost eerie ability to focus on the work, and, patience. The only artist to have three shows at the Smithsonian American Museum of Art, David Beck comes across as the smartest, most creative guy you knew in high school. He didn't get a day job.
