Broadcast / IT Technician
Reports to Director of Broadcast & Technology
Full-Time with Full Benefits

This position is responsible for installing and maintaining broadcast/computer systems and providing support to WNIN TV and FM Broadcast Operations. WNIN operates channels 9.1 and 9.2 on television, and 88.3FM on radio.

Duties: Broadcast / IT Technician will work closely with all departments to help satisfy the technical needs of the broadcast facility and network. Employee will facilitate repairs and preventative maintenance of various pieces of equipment in the facility. Broadcast / IT Technician assists in construction, installation & documentation of new systems and equipment, and performs other duties and responsibilities as assigned by the Director of Broadcast & Technology.

Skills: This position is not a traditional IT position. Computer and IT skills are necessary but only one aspect of the job. Troubleshooting and repair of electrical systems is a necessity. Employee must have knowledge in the use of basic test equipment and know how to solder. The employee must have the ability to work well under pressure in a fast-paced environment. Transmitter experience desired, but not required. Completion of a basic electronics education program is required, and minimum of a 2-year related technical degree desirable.

Qualifications: Strong work ethic, positive attitude and leadership qualities with the ability to handle multiple tasks and setting priorities a must. Ability to work non-traditional hours with occasional evening shifts as well as on call weekends and holidays as needed. This job requires interaction with many people, and employee must possess good communication skills and get along well with others. Must be punctual, and have regular, consistent attendance.

WNIN is an Equal Opportunity employer.
